

# POULTRY PLASTIC MESH

## SPECIFICATION SHEET

### Poultry Ground Protection Mesh

Our poultry ground protection mesh is ideal for use in areas where poultry will be actively scratching and foraging and will offer protection against the destruction of grassed areas via soil erosion and root removal and allow for the preservation of an aesthetically pleasing environment. Manufactured from UV stabilised HDPE, it is rot-proof, chemical resistant, easy to install and a cost effective alternative to wire or chain link products.

- UV treated
- 5 year warranty
- Reinforced smooth edges
- Prevents 'dust bowl' effect

Colour	Size	Mesh size
Green	1.5m x 50m	20 x 19mm
	1.5m x 200m	

Physical characteristics	
Polymer	Polyethylene
Mesh Shape	Hexagonal
Colour	Green

Dimensional Characteristics	Unit	
MD pitch	mm	30.0
TD pitch	mm	30.0
Unit weight	g/m <sup>2</sup>	270.0

Technical characteristics	Test method	Unit	
Tensile strength MD	Method TX3	kN/m	1.5
Yield point elongation MD	Method TX3	%	30.0
Tensile strength TD	Method TX3	kN/m	1.3
Yield point elongation TD	Method TX3	%	15.0

### Mesh pegs also available

Fixing pegs for use with our poultry ground protection mesh.

- Size: 150mm
- Material: Polypropylene
- Colour: Black

### J and U pins also available

- Premium heavy-duty Fixing Pin
- Can be driven into most soil types with a Club Hammer
- Hold down fence sections to stop burrowing animals
