

THE WIREMAN STRAIN X LEVER HOIST

The 'Wireman Strain X Lever Hoist' is a robust and reliable lifting device designed for heavy-duty applications.

With a weight capacity of 500 kilograms, this lever hoist is perfect for various lifting tasks in industries such as construction, manufacturing, and warehousing.

- Robust and reliable lifting device designed for heavy-duty applications
- Simple and user-friendly design for easy operation
- Heavy-duty construction with durable materials for long-lasting performance

Product Specifications:
Weight Capacity: 500 kilograms
Body Material: Light alloy
Standards: AS/NZ approved

The hoist features a simple and user-friendly design. Its lever mechanism allows for precise control and smooth operation, ensuring safe and efficient lifting operations.

One of the standout features of the 'Wireman Strain X Lever Hoist' is its heavy-duty construction. It is built to withstand rigorous use and is capable of withstanding demanding work environments. The hoist's durable materials and solid construction ensure long-lasting performance, making it a reliable choice for heavy lifting tasks.

The lever hoist also boasts a light alloy body, providing a lightweight yet sturdy structure. This design feature enhances portability without compromising strength, allowing users to easily transport and maneuver the hoist as needed.

The 'Wireman Strain X Lever Hoist' meets the AS/NZ standards, guaranteeing its compliance with safety regulations and ensuring high-quality performance. This certification reflects the hoist's adherence to strict industry standards, providing users with peace of mind regarding its reliability and safety.

Moreover, the 'Wireman Strain X Lever Hoist' is also well-suited for fencing applications. Whether you need to install wire mesh, chain link fences, or tension wires, this lever hoist can effectively assist in the tensioning process. Its precise control allows for accurate tension adjustments, ensuring a secure and stable fence installation.
